HELPFUL HINTS WHEN DELIVERING YOUR GRAIN AT HARVEST

- When coming on to the scale, display a sign in the window showing tenant and landlord(s) name and splits. It is also helpful to place the account number on the sign.
- Make sure your driver is aware of whose grain they are delivering. Have them check the names on scale tickets before they leave the elevator after unload. Please notify scale operator when the last load is delivered off a particular split.
- All grain delivered will be available for settlement the day following delivery.
- When you call to settle grain, please inform our grain accounting personnel who you are, who your landlord/tenant is, the division of the grain and what grain is involved.
- If you want to sell your grain across the scale, please make sure the operator is aware of this at the time of delivery. Grain sold across the scale will be priced as of that day’s closing bid.
- Checks will be held for you to pick up at your location unless we are instructed to mail them. If you wish to have the payment deferred until 2024, please tell your location personnel.

To prevent errors, we request that you verify with our personnel, the total number of loads delivered at the time of settlement. We ask you to do this as it reduces the possibility of posting errors and increases our timeliness on writing your checks. We will not write any checks unless loads are verified. Checks will not be issued until you instruct us to do so. This precaution is being taken to reduce errors along with extra work if you wished to defer the income from the sale.

GRAIN POLICIES By delivery commodities to CPI, Customer acknowledges and agrees that:

- The storage agreement between the Customer and CPI shall be subject to the terms of these Grain Policies. This agreement shall be subject to the Nebraska Grain Warehouse Act and the accompanying administrative regulations thereunder.
- Customer represents that it has good title to the grain, and has authority to ship, store and sell it through CPI.
- Deliveries may remain unsettled for 15 days from first day of delivery. After 15 days, the delivery closes and if no disposition, the grain will be placed into open storage and shall accrue storage charges from the original date of delivery. Deliveries of grain may be co-mingled by CPI.
- CPI shall have a lien against the grain stored for all charges for storage and handling, and those related to its preservation (including drying), at the rates set forth in these Grain Policies; and Customer hereby grants to CPI a security interest in said grain to the extent of such charges and fees.
- Drying/storage/handling charges on open storage grain are due upon the earlier of; (i) request by CPI; or (ii) date of sale prior to transfer of title, or removal of the grain from open storage.
